pharmaceutical products business and research & development based on reverse engineering science. **B. Rationale for the Scheme of Arrangement:**

- (a) The Company has been making substantial investments in Research & Development activities including **Innovative Research & Development activities and New Drug Delivery systems** over the years. **Innovative Research & Development activities (including New Drug Delivery systems)** are herein after referred to as "**Innovative R & D**". The investments in Innovative R & D will have high risk & high return compared to manufacturing & marketing of pharmaceutical products business and research & development based on reverse engineering science. The time frame approaches and resource requirements for process and product development are relatively certain/known and the outcome is relatively certain. On the other hand, innovative research, both for NCE and NDDS can have varying time frames and risk. Resource requirements also can be difficult to predict. However, given the right resource base and focus, the Innovative R& D offer strong potential.
- (b) The Innovative R & D business has tremendous growth and long term profitability potential and is at a stage where they require focused management attention. Hence, simultaneously, with the re-organisation and segregation of business, SPIL intends to re-organise both the businesses and undertakings to provide focused management attention required by the businesses which are to be segregated .
- (c) It is believed that the proposed segregation will create/unlock value for shareholders and allow a focused strategy in operations, which would be in the best interest of SPIL, its shareholders and all persons connected with SPIL. The demerger proposed by this Scheme of Arrangement will enable the investors to choose whether to hold investments in businesses with different investment characteristics. This may enable them to select investments which best suit their investment strategies and risk profiles.

Sun Pharmaceutical Industries Ltd.

- (d) The nature of risk and return involved in both these businesses is distinct from each other and consequently each business or undertaking/unit is capable of attracting a different set of investors, strategic partners, lenders and other stakeholders. In order to enable distinct set of investors to invest in these separate businesses and to lend greater focus to the operation of each of these diverse businesses, SPIL proposes to re-organize and segregate, by way of a demerger, its business and undertaking/unit engaged in Innovative R & D from remaining business.
- (e) The demerger will also provide scope for independent collaboration and expansion without committing the existing organization in its entirety.
- (f) The Board of Directors of the Demerged Company are of the opinion that the demerger would benefit the shareholders, employees and other stakeholders of the Demerged Company.

With the aforesaid objectives, it is proposed to demerge SPIL's Unit comprising of SPIL's interests in Innovative R & D business.

#### **C. Purpose of the Scheme:**

- (a) It is therefore proposed that SPIL's Unit comprising of SPIL's interests in Innovative R & D business be segregated and demerged, pursuant to a Scheme of Arrangement under Sections 391 to 394 of the Companies Act, 1956 and transferred to a separate company for achieving independent focus in these areas. SPIL will continue its interests in the businesses of manufacturing & marketing of pharmaceutical products and research & development based on reverse engineering science.
- (b) With the aforesaid objective and to give effect to the terms of this Scheme of Arrangement, SPARC has been incorporated as the wholly owned subsidiary of the Transferor Company with the main objects relating to the Research & Development.
- (c) In furtherance of the aforesaid, this Scheme of Arrangement provides for:
  - (i) the demerger of Innovative Research & Development and Drug Delivery System Unit (as Innovative Research & Development Undertaking defined hereinafter) from SPIL to SPARC, Resulting Company; (ii) various other matters consequential or otherwise integrally connected herewith, including the reorganization of the capital of SPIL and SPARC;
- (d) The demerger of Innovative R & D Unit of SPIL under this Scheme of Arrangement will be effected under the provisions of Sections 391 to 394 of the Companies Act, 1956. The demerger complies with the provisions of Section 2(19AA) of the Income Tax Act, 1961, such that:
  - (i) all the properties of the Demerged Unit (as defined hereinafter) being transferred by SPIL immediately before the demerger become the properties of the Resulting Company by virtue of the demerger; (ii) All the liabilities relating to the Demerged Unit being transferred by SPIL, immediately before the demerger become the liabilities of the Resulting Company by virtue of the demerger; (iii) The properties and the liabilities, if any, relating to the Demerged Unit being transferred by SPIL are transferred to the Resulting Company at the values appearing in the books of account of SPIL immediately before the demerger; (iv) the Resulting Company issues shares to the shareholders of SPIL in consideration of the demerger on a proportionate basis; (v) The shareholders of SPIL shall become the shareholders of the Resulting Company by virtue of the demerger; and (vi) The transfer of the Demerged Unit will be on a going concern basis.
